Invited lectures

Well-known experts acknowledged for their excellence in different Photonics topics will be invited to develop lectures-tutorials of about 1 hour. The seven invited conferences will be the only speeches to be made in Optoel'11.

Panel sessions

The attendants will present their research results and their educational studies in panels. This communication framework fosters the personal interaction between the researchers attending the meeting.

Exhibition.

Companies will have at their disposal room to exhibit and offer their products and services. The standard module will consist of a table and basic furniture.
